

OOey-GOOey-STICKY RECIPE BOOK

BUTTER SLIME

Ingredients:

- Elmer's White Glue (8 oz)
- 1 TSP Baby Oil
- 2 TBSP Baby Lotion
- 1 TSP Baking Soda
- 3 TBSP Water
- 1 TBSP Contact Lens Solution

Directions:

1. Pour 8 ounces of your white glue in a bowl.
2. Mix your baking soda in.
3. Add water and mix thoroughly.
4. Add the baby oil and lotion and mix.
5. Add 1 TBS of contact lens solution and mix.
6. Pour the slime out on the table. It will still be very sticky and that's what you want! When you add your clay it will take the stickiness away.
7. Add a little amount of clay and fold over your slime and knead it into the slime. Keep kneading until your slime is colored and the clay is thoroughly mixed.

FOAM DOUGH

Ingredients:

- Shaving cream
- Cornstarch
- Optional: Food Coloring (Optional)
- Optional: Cups, Spoons, Bowls, Play Dough Toys, etc

Directions:

Pour any amount of cornstarch into a tin pan (or something similar) and squirt about the same amount of shaving cream on top. Mix it by squishing it with your fingers. You can add more of either ingredient until you get a mold-able dough. If you want color, add some food coloring. That's it! Super easy. Super quick. Super fun! Enjoy!

Sand Foam

Ingredients:

- Sand – Approximately 3 Cups
- Shaving Foam – Approximately 1 Can / 250g

Directions:

Simply pour your sand into a tub, then pour in your shaving foam – mixing as you go – the kids LOVE this part! Keep mixing and adding the shaving foam until you are happy with the texture.

MOON SAND

Ingredients:

- 8 Cups Flour
- 1 Cup Baby Oil

Directions:

Mix together and play.

HOMEMADE FLOAM

Ingredients:

- 2 TSP Borax
- ½ Cup Warm Water
- ¼ Cup Water - Divided
- 2 oz White School Glue
- 1 1/3 Cup of Polystyrene Beads
- Optional: 3-5 Drops Food Coloring

Directions:

1. In a bowl, combine 2 tsp of borax with ½ cup very warm water.
2. Mix until borax is dissolved.
3. In a separate bowl combine ¼ cup glue with ¼ cup water. Add food coloring if desired.
4. Once the ingredients of both bowls are mixed, pour glue mixture in a ziplock bag.
5. Add the polystyrene beads and then add the borax and water mixture to the sealed bag.
6. Once sealed mix the ingredients of the bag well until floam is formed.

Oobleck

Ingredients:

- 2 Cups of Cornstarch
- 1 Cup of Water
- Optional: Food Coloring

Directions:

If you want to add food coloring, mix your food coloring with the water. Choose any color you prefer. Then stir the water into the cornstarch until the oobleck is formed. Mix it all together and that is it!

HAVE FUN PLAYING!

And we hope to see you soon at Ramah Darom!
