

# COVID Brit (Agreement)

## כל ישראל ערבים זה בזה

***Kol Yisrael Arevim Ze Bazeh (Shevuot 39a)***

**The entire Jewish people are considered guarantors for one another.**

Our family agrees that health is the number one priority for Camp Ramah Darom this summer. We pledge that for the two weeks prior to arriving at Camp, our family will mitigate our risk of COVID-19 exposure to ensure that our chanichim (campers) can have a safe and successful summer. We understand that no environment is risk-free but that the protocols in place are meant to protect our chanichim and tzevet (staff) and ensure Camp can operate.

We will refrain from unnecessary travel and social engagements that could increase the possibility of being exposed to or contracting, COVID-19 to protect the Camp community.

We understand that we will be required to show proof of a negative molecular (PCR) test to enter Camp, and such test must be taken 2-3 days before the first day of Camp. We also understand that Camp recommends children take a test 10-14 days before the first day of Camp to ensure that there would be ample time to isolate, in the event a child has a positive test unknowingly.

Camp is a partnership between families and the professional team. We pledge as a household to be an equal partner in protecting the Camp Ramah Darom community by doing our part to the best of our ability to arrive at Camp healthy.
